

INFORMATION AND RESEARCH SUBMITTED BY AN ANONYMOUS LISTENER...

The current issue of Creation Magazine has an article on our amazing, complex immune system which God has created. How anyone after reading this article, can think their immune system just evolved is insane.

BETA GLUCAN- super charges the immune system – 5-minute video at GetBetaGlucan.com. As one of the many doctors in this short 5-minute video says, No doctor ever cured anyone. It is your immune system that cures. There is a 2-minute video showing how Beta Glucan enhances your immune system to ward off cancer, virus and many illnesses. It is well worth the five minutes to view.

Also, Mycoultra.com/salesletter – provides very informative print information on Beta Glucan. They do promote their own product which does not negate that the information is very good.

We personally buy NOW Foods Extra Strength Beta Glucan and Immune Renew from Vitacost.com for ½ the cost Walmart and Health Food stores sell the same products for.

The American Cancer Handbook mentions Ellagic Acid. We know 3 people (one given 60-90 days to live) who became cancer-free using Ellagic Acid (the type is very important). VitaPurity.com has a good product. They also have Citral which is developed in Israel which has been proven to kill cancer cells.

We know people personally who had the Covid who experienced a very quick recovery using Ivermectin Horse Paste from Tractor Supply, using an amount suitable to their body weight. \$4.95 compared to a much higher prescription cost plus doctor fees.

Red Rice Yeast – lowers cholesterol and improves the arteries. Must have Ubiquinol COQ10
